

REMARKS

Interview Summary

Applicant acknowledges the interview on March 9, 2006 in which were discussed two cited references, and the claim amendments made with the response filed on March 3, 2006

In that interview, the Examiner pointed out that it was the structure labeled **38** in *Sellers* FIG. 5 that was considered to correspond to the center anchor.

Claim Amendments

Applicant further amends the claims in accord with the interview.

In particular, Applicant cancels claim 1. Claims 3 and 4 are also cancelled since the subject matter of those claims is similar to what is already in claims 9 and 10. Applicant amends the dependent claims accordingly.

Claims 9 and 10 are believed to be patentable since they recite subject matter similar to claims 3 and 4, which the Examiner considered to be patentable.

Now pending in this application are claims 2, and claims 5-12, of which claims 9 and 10 are independent. Claims 6-7, and new claims 11-12 all depend on claim 9. Claims 2, 5, and 8 depend on claim 10.

No additional fees are believed to be due in connection with the filing of this response. However, to the extent fees are due, or if a refund is forthcoming, please adjust our deposit account 06-1050, referencing attorney docket "04764-011001."

Respectfully submitted,
